

Welcome to Treasures Custom Jewelers. This is not only the state's most awarded jeweler, but also the only store in the state to win a pricing award and the state design contest in the same year. Quality and value at the same time is a concept that is often talked about but rarely accomplished. Several hundred one of a kind designs are in the cases, a few of them are on the web site to give you a feel for what we do. All gems used in our designs are mined from the ground, not lab created.

We can also create a treasure made just for you in any style, any metal, and the gem of your choice.

Please take the time to view some of Treasures' most recent additions. Let your imagination run wild. When you visit our store, get to know some of our greatest Treasures. . . our staff.
